Submit a Project Pitch NOW and find out if your project is a good fit.

The Process

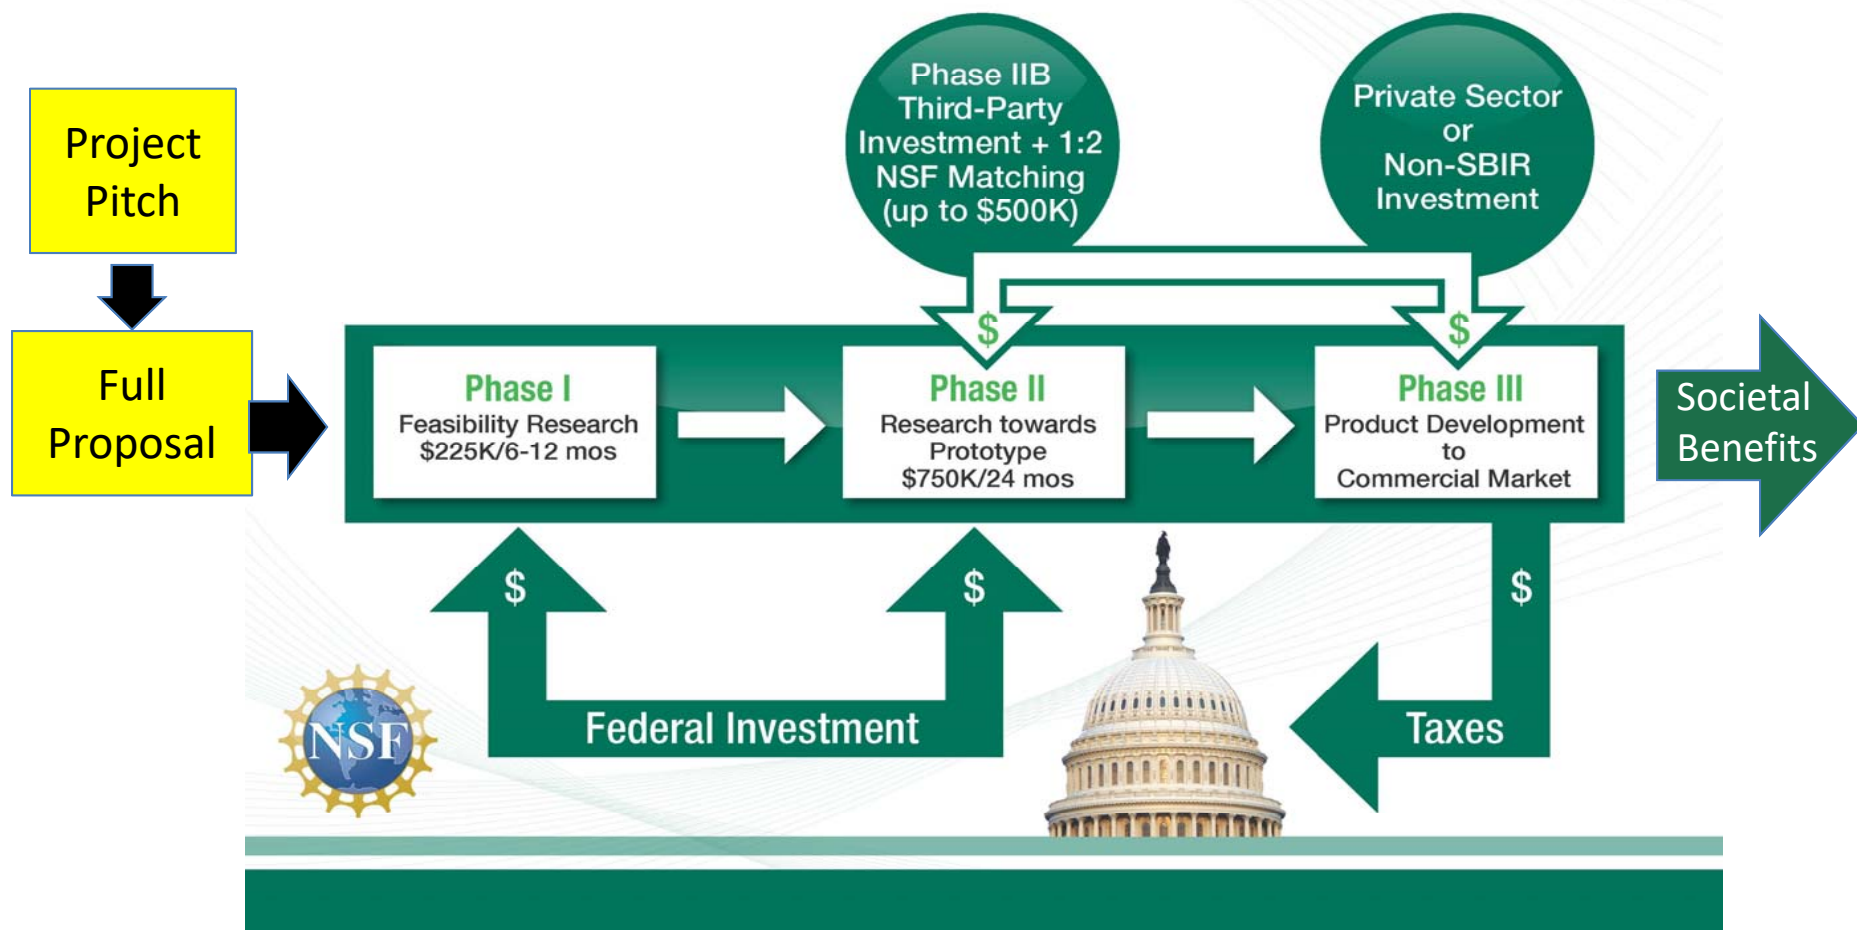

seedfund.nsf.gov/apply

- 1. Submit a Project Pitch**
- 2. Receive invitation to submit a full proposal**
- 3. Register your company**
- 4. Study the solicitation**
- 5. Prepare your proposal**
- 6. Submit your proposal during an announced submission window (next close March 5th)**

What is America's Seed Fund at NSF?

NSF SBIR/STTR INNOVATION MODEL

Project Pitch

The required Project Pitch allows startups and small businesses to get quick feedback at the start of their application for Phase I funding from America's Seed Fund powered by NSF.

Please note!

- 1. You must be **invited** to submit a full proposal**
- 2. Registrations take time...**

Step 1 – The Project Pitch

4 **NEW** Submit your Project Pitch (required)

Find out if your project is a good fit for the program.
Processing time: Up to three weeks.

Submit your Project Pitch using our [online form](#) .

Submit your Project Pitch:
<https://seedfund.nsf.gov/apply>

Recommendation -

You may want to submit your Project Pitch
6 weeks prior to the end of a submission window.

Why 6 weeks?

Project Pitch processing (3 weeks),
full proposal creation (up to you!) &
four required registrations (up to 4 weeks).

The fine print –

- Limited to **two pitches** per window
- If you submitted a pitch, you must wait until you hear back before submitting another
- Full proposal under review – sorry, you can't submit a pitch until you hear back

Step 2 – Receive invitation to submit a full proposal

Good fit =

You'll be **INVITED** to submit a full proposal.

The program director will be able to provide guidance, feedback and support through the required registrations AND proposal submission process.

Not a good fit =

Immediate feedback

You'll be told why NSF wouldn't fund your project.

You'll have to go back to the drawing board.

You can submit another pitch (up to 2 pitches total) in a submission window.

Incomplete Pitch?

NSF will ask for **more information!**

The program director will reach out via email or phone to learn more.

Step 3 – Register your company

Complete **Four** Registrations!

1. Dun and Bradstreet Data Universal Numbering System (DUNS)
2. System for Award Management (SAM)
3. Research.gov
4. Small Business Administration (SBA) Company Registration

Please Note: Effective February 28, 2022, NSF will transition from DUNS numbers to the new System for Award Management (SAM) Unique Entity Identifier (UEI) in its systems. See the NSF Advisory Page for more details. However, a DUNS number is still required to register in SAM.gov and to receive a SAM.gov-issued UEI until April 4, 2022.

5 Register your company (FREE and required)

If your company hasn't worked with the government before, you'll need to register with these systems. You **MUST** have completed your SAM registration **BEFORE** you can begin entering your proposal in FastLane. Start as soon as possible!!

Research.gov v. FastLane

- Register in Research.gov
(SBIR/STTR proposals are **NOT** accepted in Research.gov)
- Prepare and upload your proposal in FastLane

Register

Submit Proposal

Step 4 – Read the Solicitation

The SBIR and STTR solicitations

They contain anything and everything you need to know about how to prepare and submit your proposal.

6 Read the call for proposals (solicitation)

We only accept proposals from companies that have been officially invited to submit (via the Project Pitch process). You can check out our current [SBIR solicitation](#) or [STTR solicitation](#) to get a sense of NSF's objectives.

SBIR Solicitation – NSF 20-527

<https://www.nsf.gov/pubs/2020/nsf20527/nsf20527.htm>

STTR Solicitation – NSF 20-528

<https://www.nsf.gov/pubs/2020/nsf20528/nsf20528.htm>

Step 5 – Prepare your proposal

Prepare your proposal

Everything you need is in **Section V.**

TABLE OF CONTENTS

Summary of Program Requirements

I. Introduction

II. Program Description

III. Award Information

IV. Eligibility Information

V. Proposal Preparation and Submission Instructions

- A. Proposal Preparation Instructions
- B. Budgetary Information
- C. Due Dates
- D. FastLane Requirements

VI. NSF Proposal Processing and Review Procedures

- A. Merit Review Principles and Criteria
- B. Review and Selection Process

VII. Award Administration Information

- A. Notification of the Award
- B. Award Conditions
- C. Reporting Requirements

VIII. Agency Contacts

IX. Other Information

Project Description. (15) pages MAXIMUM.

- **Elevator Pitch (no more than one page)**
- **The Commercial Opportunity (recommended length: 2-4 pages)**
- **The Innovation (recommended length: 1-3 pages)**
- **The Company/Team (recommended length: 1-3 pages)**
- **Technical Discussion and R&D Plan (minimum length: 5 pages, recommended length: 5-7 pages)**

Prepare your proposal

Budget, supplementary documents, etc. **Section V.**

- B. Review and Selection Process

VII. Award Administration Information

- A. Notification of the Award
- B. Award Conditions
- C. Reporting Requirements

VIII. Agency Contacts

IX. Other Information

Intellectual Merit

- Innovative (i.e. novel and differentiable new approach that will solve a big ongoing problem)
- High-technical risk requiring R&D to prove out

Broader Impacts

- Potential to benefit society and contribute to the achievement of specific societal outcomes

Commercial Potential

- Market/customers and value proposition identified
- Company/team suited to aggressive commercialization
- Sustainable competitive advantage, credible business model
- NSF funding will “move the needle”

**So, when and
how do I submit
a proposal?**

Proposal Submission

Advisories

- 04/29/19 - GRFP 2019 Reviews are available. Awardees can now accept awards and declare fellowship status plans. [Click here to learn more.](#)**
- 02/25/19 - Now Being Enforced in FastLane and Research.gov: PAPPG (NSF 19-1) Policy Updates and New Automated Proposal Compliance Checks. [Click here to learn more.](#)**

Submission Windows

- Allow a company to submit a full proposal at any time (after invite).

December 18, 2019 - March 05, 2020

March 06, 2020 - June 04, 2020

June 05, 2020 - September 03, 2020

September 04, 2020 - December 03, 2020

- We would encourage you to submit your proposal on or before the end of the submission window.
- NOTE: The systems will NOT accept proposals between 5 p.m. – midnight on the window close date.

What happens after submission?

- 1-3 months after the window closes ----> Applications undergo merit reviews.
- 3-5 months after the window closes ----> We'll notify you whether your proposal is accepted or declined.
- 5-6 months after the window closes ----> If your proposal is accepted, you'll receive funding of up to \$256,000.
